

## Callaway Golf Changing Auditors

CARLSBAD, Calif.--(BUSINESS WIRE)--Dec. 16, 2002--Callaway Golf Company (NYSE:ELY) announced today that, pursuant to the recommendation of its Audit Committee, the Company's Board of Directors has asked Deloitte & Touche LLP to become the independent auditors for the Company, replacing KPMG LLP. KPMG had been appointed as the Company's independent auditors effective March 25, 2002 and has never issued a report on the Company's financial statements. The appointment of Deloitte & Touche is subject to satisfactory completion of Deloitte & Touche's customary client acceptance procedures, which the Company expects to be completed shortly.

The Company had recently announced that it would be delayed in filing its Form 10-Q for the third quarter because the Company and KPMG were still in the process of reviewing the appropriate periods in which to record a \$17 million reduction in the Company's warranty reserve. While both management and KPMG agree with the magnitude of the adjustment, they have been unable to reach agreement as to the proper period or periods in which to reflect the non-cash increase in net income. Ultimately, the Audit Committee recommended that the Board seek new outside auditors.

"In making this change, we wish to point out that neither the Audit Committee nor the Board has made a final determination as to the proper treatment of the reduction in warranty reserves," stated Ronald S. Beard, Chair of the Audit Committee. "It is our plan to work with Deloitte & Touche to resolve this matter, one way or another, as quickly as possible and file our 10-Q."

Brad Holiday, Executive Vice President and Chief Financial Officer, stated, "While we regret our delay in resolving this accounting issue, we want to remind investors that this is strictly a non-cash accounting matter as to which periods to record an increase in earnings due to the reduction in the Company's warranty reserve. In our reporting on this matter to date, we have made clear to our shareholders and to potential investors our financial results from operations both with and without the effect of this adjustment."
